Partners In Energy

AN ENERGY EFFICIENCY PROGRAM
FROM BAY STATE GAS

ENERGY

Bay State Gas Company is committed to providing our commercial and industrial customers with targeted technical and financial assistance to reduce their natural gas consumption and related energy costs. Our Partners In Energy Program offers customers a streamlined, step-by-step process for identifying energy-saving opportunities and installing energy efficiency upgrades that can save you energy and money, and help the environment.

Bay State Gas Partners In Energy Program — Working with you to bring energy savings to your business.

Partners In Energy

Bay State Gas Company's Partners In Energy Program makes improving energy efficiency easy and economical.

HERE'S HOW:

- Bay State Gas offers an energy evaluation — at no charge to you
- A no-obligation written report identifies your energy savings potential and the projected financial benefits to your business
- Bay State Gas pays up to \$50,000 towards qualified improvements
- You save energy and money!

How do I participate in the Partners In Energy Program?

All firm, commercial gas customers whose annual use is less than 40,000 therms are eligible to participate in the Small Commercial & Industrial program.* Bay State Gas offers — at no cost to you — a walk-through evaluation of your existing or planned facility to identify potential energy-saving opportunities. The evaluation examines existing and/or potential natural gas equipment and technologies, including:

- Space heating equipment and systems
- Water heating equipment and systems
- Gas-fired process and manufacturing equipment
- Temperature and process controls
- Heat recovery equipment and systems
- Ventilation equipment and systems
- Building shell improvements
- Other site-specific technology needs

Following the evaluation, you receive a no-obligation written report highlighting recommended energy efficiency improvements and projected financial benefits.

Does Bay State Gas provide financial assistance to help me make these improvements?

Yes. Bay State Gas shares a portion of the cost to design, purchase and install qualified energy efficiency upgrades. Bay State Gas pays up to 50% of the qualified installed cost, up to a maximum of \$50,000 per master meter.

How do I learn more about the Partners In Energy Program?

Just call 800-232-0120 to speak with a Partners In Energy representative. They have expertise in all energy-related topics, including program enrollment, high-efficiency equipment selection, and fuel use analysis. Whatever your needs, Bay State Gas is your partner in achieving valuable energy savings for your business.

For more information or to sign up for the Partners In Energy Program, please call

800-232-0120

Monday – Friday, 8 am to 4:30 pm

*For customers using greater than 40,000 therms, please refer to the Large Commercial & Industrial program.

NOTE: Program terms subject to change without notice.
